News and helpful information from your friends at AmeriWeb Hosting
December 2020

**Wishing you and your family, AND YOUR BUSINESS
a happy holiday season and a very prosperous 2021**

WEB NEWS

New SPAM FILTERING Robot Now Available

- If your email is inundated with spam, we have a low cost solution!
For just \$2.99 per month Say Goodbye to Spam!
Our robot will scan all of your email and immediately drop up to 95% of all spam from your inbox. You can review all spam to ensure nothing valid is being flagged. And as a free bonus, we will check for Trojans or Virus attachments.
[READ MORE HERE](#)
- If you like to keep a lot of your emails in storage for future reference, we have a new offering for you as well.
For just a few dollars per month more (\$68.99 per year for both) we will filter your email for spam AND store all of your emails on a remote server, up to 10gig. Easily restore saved email, search or remove as you wish. Great option if you save a lot of your email for future reference and it is slowing down your current email. [READ MORE HERE](#)

You can order spam filtering alone, or filtering PLUS storage. Works on any web site email, but not generic or free emails (gmail, yahoo, bing, etc). Cost is per domain, not per email address, perfect for a business with a lot of email users.

Call me to explore your new options with email!

HOW TO

Spell Check your Web Site for Errors

Everyone makes a mistake once in a while. While innocent, they can be embarrassing.

Each time you create a new web page, you should run it through a quick spell check site. Here is one that is free:

<https://www.online-spellcheck.com/>

This is a free online service you can use any time you wish. When you run your URL, they will flag any suspect words. You should always verify they are indicating a true misspelled word. You'll find names, places or technical words throw them.

All in all, this is a GREAT service that will help you find errors.

MARKETING

The Importance of Google

We all know it is very important for your business to show up on Google whenever someone searches for your business, one of your products or services in Google search or Google Maps.

Nowadays no one looks at yellow pages for businesses, they "google" it. Even when someone recommends a place or business, most of the time you check it online before a visit or a contact.

Here are some some quick facts to demonstrate the importance of Google to your business:

- Google holds 92% of the Worldwide search engine market share
- 85% of people look online for products and services in their local area every month
- Nearly 50% of ALL online searches are for businesses / services located nearby
- 76% of consumers who did a local Google search visited a local business.
- 96% of customers are more likely to visit a local business that has business hours on Google
- 90% of customers are more likely to visit a company with a phone number on Google

If you do one thing for your website, be sure you are listed on Google, and your listing is accurate! AmeriWeb Hosting can help you with this. Just call and we can begin the process!

ASK A TECH

Q: I have a domain I want, but someone else has it. Can I get it from them?

A: There are several ways to get a domain that someone else already has. You can negotiate for it or wait for it to expire and scoop it up.

There are services that will monitor domains and grab it for you when it does expire.

They charge a fee, generally \$25-45. Contact us for a suggestion. Also note, if the current holder doesn't allow it to expire you will need to wait for it.

AmeriNews is published approximately 10 times a year by AmeriWeb Hosting for our customers, friends and those curious about our business. If you have a question for our ASK A TECH section, email it to support@ameriwebhosting.com
